Go Outside

Marco Polo

What you need:
Pool

How To Play
On person is chosen to be "IT." They will close their eyes while the others swim in all different direction of the pool. After 60 seconds, "IT", begins calling "Marco!" with their eyes closed. When they say this, the others must respond by saying "Polo!" unless they have dived under the water. "IT" is trying to swim and tag someone without opening their eyes. If "IT" calls "fish out of water" and someone is out of the pool, they are "IT". Everyone must respond when "Marco!" is called. Whoever gets tagged gets to be "IT" next.
